The worry-proof roof

## GERARD® ROOFS – TRADEMARK OF IKO METALS EUROPE

IKO METALS EUROPE leads the world in steel roof tile production and technology. Recognition of market needs has driven the company's success. Roofs produced by IKO METALS EUROPE have protected many thousands of homes and commercial buildings around the world since 1957.

Gerard® Classic, Heritage and Diamant Tiles, Shakes, Shingles, Milano and Alpine Tiles form the basis of an ever-growing range of profiles in regular demand across Europe and throughout the rest of the world.

Our company's vision is to provide innovative high quality roofing systems that everyone aspires to have on their home. Our company's core values include a willingness to meet all challenges, to conduct our affairs with honesty and integrity and, very importantly, to provide our customers with genuine value for money.

## STORAGE

Ideally tiles and accessories are stored indoor in a warehouse. If stored outside, it should be kept in a sheltered place and a well-sealed waterproof cover must be placed over the Gerard roofing tiles and accessories to keep them dry and prevent damage to the substrate. Pallets should be stored on a 'sealed' floor - such as concrete, where the surface is sealed in some manner to prevent moisture rising up from the ground.

## WET SURFACE

To prevent surface damage it is important not to walk or work on the roof when it is wet.

## HANDLING

Care should be taken when handling the tiles to avoid damage to the surface. Where minor damage does occur, the finishing kit should be used to repair the damage.

## PACKAGING

Tiles and accessories should be stored on wooden pallets and protected by a plastic cover. A pallet consists of between 250 and 350 tiles. This represents a roofing area of between 115 and 178 m$^2$. The base dimensions of tile pallets are 1430 × 1070 mm and in case of Diamant profile 1430 × 1120 mm. The maximum height of a pallet is 1000 mm. Tiles are stacked on each pallet up to a maximum weight of 1150 kg.

Pallet Tile: 1430 mm × 1070 mm
Pallet Tile Diamant: 1430 mm × 1120 mm
Pallet Accessories Large: 2050 mm × 1070 mm
Pallet Accessories Small: 1420 mm × 1120 mm

## ESTIMATING THE QUANTITY OF TILES REQUIRED

An accurate quotation of the quantity of tiles and accessories should be obtained from the distributor. Some simple methods of estimating are described in the Installation Manual.

## IDENTIFICATION

Each Run is identified individually; this identification can be found on the labels attached to the pallets and on the backs of the tiles. Product traceability is ensured from manufacturing through to installation. The labels can be kept and filed. The chip used to coat our textured roofing tiles is crushed natural rock and there may be slight colour variations between different batches of chip.

Each Run of tiles is colour coded at the time of manufacture using a letter code, referred to as the colour code; this letter code is located on the Pallet Label on each end of the pallet and not on the reverse side of the tile. This letter code changes whenever there is a colour change in the tiles whether it is within a Run (rarely) or at the next Run. Colours are matched against the last colour standard for the particular colour and profile of the tile.

It is essential that tiles used on an individual roof have the same colour code and it also recommended that tiles used are from the same Run number if possible. Where this is not possible (e.g. for large roof installations) tiles with different colour codes can be used on different areas of the roof, but they should be separated at the edges of the roof (e.g. at ridges, hips and valleys). Tiles with different colour codes should NEVER be mixed on one roof area.

Weight: max. 1,10 kg
Package: 1/Box

* accessories on request

# COMPONENTS

## TUBE TILE 1 PIPE

Code: 84431xxx  CLASSIC
Code: 89431xxx  MILANO
Code: 86431xxx  CORONA
Code: 88431xxx  SENATOR
Code: 89762xxx  DIAMANT
Code: 87431xxx  HERITAGE

Max. Ø 69 mm pipe
Weight: max. 1,00 kg
Package: 5/Box (Senator 8/box)

## TUBE TILE 2 PIPES

Code: 84491xxx  CLASSIC
Code: 89491xxx  MILANO
Code: 86491xxx  CORONA
Code: 88491xxx  SENATOR
Code: 89751xxx  DIAMANT
Code: 87441xxx  HERITAGE

Two pipes max. Ø 27 mm
Weight: max. 1,00 kg
Package: 5/Box (Senator 8/box)

## SAFETY HOOK

Net Weight: 0,675 kg

Code: 800065

## SOLAR HOLDER

Net weight: 0,9 kg
Loose packaging

Code: 894400

## ROOF GUARD GERARD

Net Weight: 5,5 kg

Code: 899995

## GUILLOTINE

Code: 81965091

Replacement parts:
Code: 896507  straight blade
Code: 896506  curved blade

Weight: 30 kg
Package Volume: 0,14 m³
Package Box: (1190×640×185 mm)

## COMBINED BENDER

Code: 81965031

Replacement parts:
Code: 81965055  short tile bender
Code: 81965050  long tile bender

Weight: 60 kg
Package Volume: 0,20 m³
Package Box: (920×860×260 mm)
