Dear partner,

We're thrilled to share that Trespa® TopLab® *PLUS ALIGN* will be available in an extended range of 11 colours, from April 15th, 2024.

## Shaping the future with Trespa® TopLab® *PLUS ALIGN*

Trespa® TopLab® *PLUS ALIGN* combines reliability and performance with an increased renewable composition.

The core incorporates up to 85% bio-based materials, enabling a greater amount of carbon storage within the panel, surpassing emissions related to its production.

With this revolutionary approach, Trespa® TopLab® *PLUS ALIGN* sets a new industry standard, bringing an unparalleled impact on carbon reduction.

For more in-depth information, please reach out to your dedicated Trespa sales representative.
